

Lash Den

CARE SHEET

Your single-strand eyelash extensions need minimal care & will easily adapt to your own lifestyle. They are resilient to water, perspiration & tears as well as swimming, showering and sports. In order to maximize the lifespan of your single-strand eyelash extensions, we recommend that:

During the first 48 hours, avoid:

- ~ Getting your eyes wet
- ~ Swimming, sauna and steam-room
- ~ Tanning beds
- ~ Mascara
- ~ Applying oil-based makeup, creams and cleansers to your eye area
- ~ Sleeping on lashes - and/or
- ~ Rubbing, pulling, playing or curling lashes

After the first 48 hours, avoid:

- ~ Applying oil-based makeup, creams and cleansers to your eye area;
- ~ Mascara (you can use mascara on your bottom lashes, but avoid waterproof mascara)
- ~ Repeated use of sauna and steam-room
- ~ Sleeping on lashes (try using a silk or satin pillow case if this cannot be avoided) - and/or
- ~ Rubbing, pulling, playing or curling lashes

If you wish to have your single-strand eyelash extensions removed, it is recommended that the removal be done by the Lash Den or another certified eyelash technician. This will ensure that none of your natural lashes will be damaged during the removal process.
